

Teacher Says Slaying Was Self Defense

CINCINNATI, Ohio (AP)—Edyth Klump, 34, a teacher who Tuesday night told police of slaying a rival and then burning her body, claimed today that she acted in self defense, he is charged with murder.

The dead woman, Martha Louise Bergen, 32, over whose husband the women quarreled, drew a pistol while they were discussing the situation, Mrs. Klump said in a written statement.

Then, she added, "something happened and Mrs. Bergen was injured. She did not elaborate."

When she learned Mrs. Bergen was dead, Mrs. Klump told prosecutor Mel Rieger, she shoved the body into the luggage compartment of her automobile, took it to the shore of Lake Cowan, a state reservation 45 miles northeast of Cincinnati. There she set it afire, she said.

Interracial Marriage Is Revealed

NEW YORK (AP)—The marriage of Josephine Prentice, Negro entertainer, and Timothy Fales, social register son of a prominent banker-in-law, was disclosed today by a friend of the bride.

Asked if there had been any objection from her husband's family to the interracial marriage, the bride said: "I'd rather not say. We just want to be left alone and lead our own lives."

The wedding took place last Friday in Miss Prentice's Greenwich Village apartment.

Miss Prentice, 32, is currently a featured performer in the Broadway musical "Jamaica." It is her first marriage.

Fales, who friends said is about the same age, was previously married to Ellen Wood, a model. She obtained a divorce in Mexico in September.

The bridegroom is a son of DeCoursey Fales, chairman of the board of The Bank for Savings here and a resident of Gladstone, N. J. Father and son are both listed in the 1958 Social Register.

New Space Plan by Russians

UNITED NATIONS, N.Y. (AP)—Soviet Delegate Valentin Zorin today presented a new outer space plan to U.S. Ambassador Henry Cabot Lodge at a closed-door meeting.

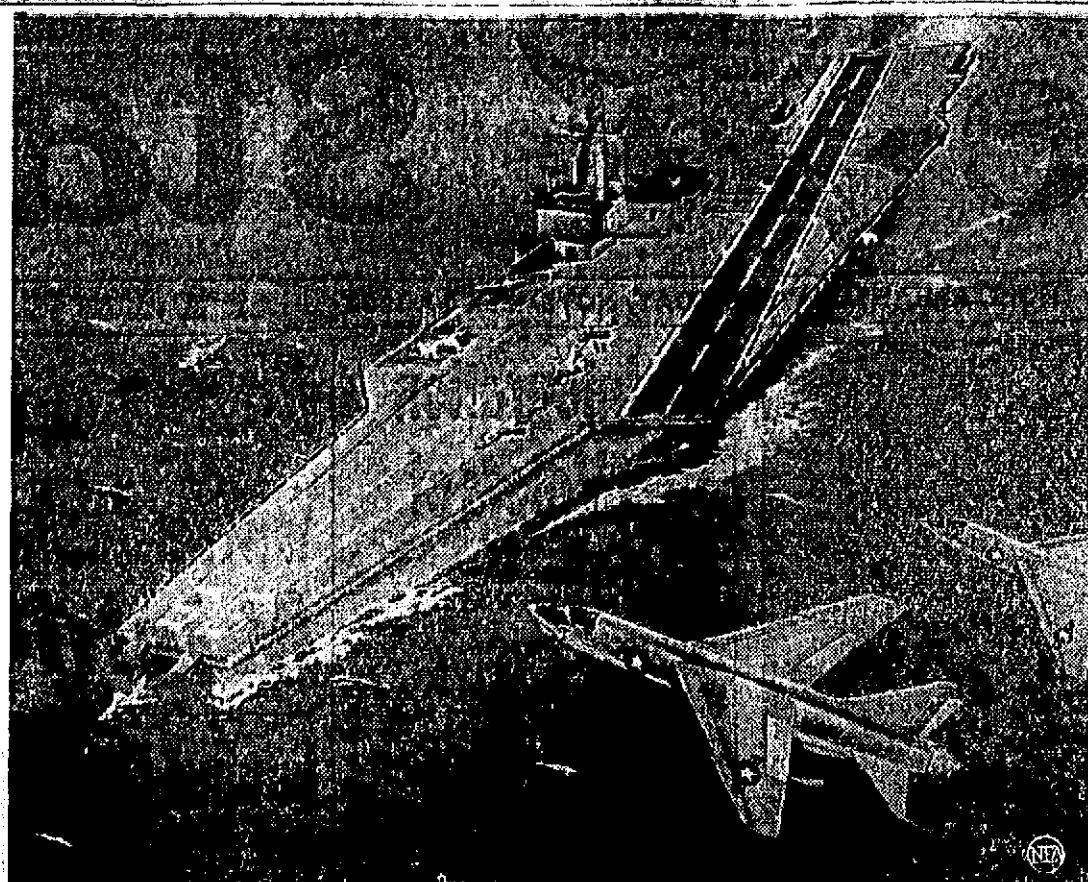

Details were not immediately disclosed.

A U.S. spokesman said the Soviets asked for the meeting with Lodge.

At a meeting between Soviet and U.S. representatives before the U.N. outer space debate started, the United States was rebuffed in its attempts to work out an East-West compromise. The Soviet Union had advised the United States to see how the debate turned out—and then submit their own plan.

At her home, accompanied her to the lakeside where gasoline was poured on the body, she said in the statement. That occurred the day after Mrs. Bergen's death.

Hunters found the body Nov. 1. The children apparently were not aware of what was going on, a detective chief told a reporter.

The governor added that Communists also have directed a great deal of attention to fomenting dissension and unrest in racial relations.

The governor reviewed pro-labor action of his administration and said he wanted to go on record again as opposing additional legislation to govern labor-management relations. "Every effort should be made to preserve the rights of collective bargaining," he said.

He said additional unemployment benefits were needed because the recent recession had demonstrated the inadequacy of

blockade. The United States, Britain and France were reliably reported to have prepared steps to take if the East Germans begin controlling Allied military truck convoys or trains. The East Germans already regulate civilian traffic from West Germany.

Western officials declined to say what Allied soldiers would do if checkpoints now manned by Russians are turned over to representatives of the East German regime which the Allies refuse to recognize.

But experts here believe the Allies will react with these steps:

1. Formally refuse to accept East German controls.

2. Protest strongly against a one-sided Russian withdrawal from the four-power occupation agreements drawn up after World

Clerk Suspect in \$100,000 Robbery Held

PORTLAND, Maine (AP)—A veteran railroad mail clerk accused of rifling three pouches of nearly \$100,000 on a Portland-Boston train as arrested as he returned home today.

Robert S. Doucette, 42, father of five was taken before U. S.

War II.

3. If left no choice, yield to East German controls while making it clear that this does not constitute recognition of the Communist regime. East Germans manning checkpoints would be regarded simply as agents of the Russians.

An alternative would be for the Allies to attempt an airlift similar to the one that broke the Soviet blockade in 1949.

Then, however, the Allies had to supply the 2,200,000 people of West Berlin. With civilian traffic not involved this time, an airlift would only have to supply the approximately 10,000 Western troops and civilian officials and families in West Berlin.

Commissioner Herbert H. Sawyer for arraignment.

Doucette entered no plea and waived hearing on a charge he embezzled registered mail. Sawyer found probable cause and held the postal clerk in \$5,000 bail.

The warrant said the money came from the First National Bank of Lewiston and Auburn. U. S. Dist. Atty. Peter Mills said Doucette allegedly opened three pouches while on the Portland-Boston run early today and removed \$98,377 in Federal Reserve System transfer funds.

He also took what is called a "test letter" containing about \$250 Mills said.

Mills said he understood that Doucette, a transportation clerk since 1941 had been under assistant postal inspector in charge.

In Boston, Arthur Lagace, assistant postal inspector in charge, said three registered letters were found in Doucette's possession.

The rifled pouches were found in an auto parked outside the station.

Doucette's arrest followed investigation of reported losses from mail going out of Portland.

Built for tomorrow—here today! Relaxed riding on new-type concrete

The scenery never jiggles and jumps

... new-type concrete gives you the smoothest ride ever!

Laid flat, new-type concrete stays flat. No "fighting the wheel." Never any firestone bouncing over dips and waves.

It's so much fun to drive—and so relaxing!

Concrete is the only kind of pavement that can be precisely engineered to such superb flatness and smoothness—as well as to meet any strength requirement.

It's because of the very nature of the material . . . and the way it can be placed and leveled to precise engineering standards—not just pounded into shape. Moreover, new-type concrete will remain flat and even through a life

expectancy of 50 years and more.

There are two reasons for this. First is the concrete itself, supported by a specially designed subbase. Secondly, there's "air entrainment." That's a new process that puts billions of tiny bubbles into the concrete to prevent surface roughening from severe weather and deicers.

Yet with all this, concrete's initial cost is modest, upkeep is low—as much as 60% less than for asphalt. Add to this dependable skid resistance, high night visibility—and you can see why concrete is the preferred pavement for the Interstate System and other important new primary highways.

All of Arkansas portion of the Interstate and Defense Highway System, now built or under contract, is in new-type, sound conditioned concrete. Arkansas' Interstate highways are being built to give safe and lasting service.

Well Water Turns Hot Suddenly

MONMOUTH, Ill. (AP)—Farmer Chalmers Lovdahl has a hot well on his farm and he's in a little fever about it.

The 30-foot well, Lovdahl said, had furnished sparkling and cold water for his household for 30 years until last August.

"The water was far colder and better for drinking than water from a nearby well—12 feet deep—that I use for my stock," Lovdahl said.

But the water in the smaller well began warming up last August. It became progressively warmer and recently it leveled off at 101 degrees, where it has remained.

Lovdahl called in experts from the University of Illinois and the State Health Department to explain the phenomenon. No satisfactory explanation was given.

Lovdahl said he's undecided whether to move away on the theory he is living on top of an

ing to the Bradley's frantic calls for help said it found evidence the ship might have been split in two by a violent explosion.

One report said the ship struck Boulder Reef, on the Michigan side of the island.

Towering 20-foot waves whipped up by 60-mile-an-hour winds battered at the stricken vessel when the first S.O.S. electrified Coast Guard radio monitors.

The last official distress message received from the captain was a foreboding: "We are breaking up and in a sinking condition."

The Charlevoix Coast Guard reported hearing the Bradley's radio operator shouting hysterically: "Get on your life jackets. We've gone down."

Then there was silence. No more was heard from the freighter, once the largest ship on the Great Lakes.

The first rescue ship to reach the scene, the German freighter Christian Sartori, reported evidence of a tremendous explosion. It spotted a large blast-torn tank and what appeared to be a rail-car but nothing else.

Planes and ships of the Coast Guard reported no sign of survivors.

First to join the German ship at the scene was the cutter Suedew from Charlevoix, some 35 miles away. The buoy tender Hollyhook from the Surgeon Bay, Wis., was dispatched to help in the search.

As the searchers combed the turbulent seas, the temperature dropped to sub-freezing and southwest winds howled in one of the worst late shipping season storms in years.

Throughout the long night, flames lit up the scene. When the Sartori exhausted its supply, a plane dropped a fresh load.

The Bradley, under the command of Capt. Roland Bryan of Loudenville, N.Y., was flying the flag of the Bradley Transportation Co. of Rogers City, Mich. The firm is a subsidiary of U.S. Steel Corp.

Most of the crew members were from the Rogers City area and officials, in telling families that the ship was lost, advised:

"The only thing you can do now is pray."

Coast guardsmen said the approximate site of the Great Lakes' worst cargo shipping disaster in nearly 20 years was about 15 miles west of the south end of Beaver Island. The lake at that point is 250 to 300 feet deep.

Baptists Pick Arkansans for Key Jobs

LITTLE ROCK (AP)—Two east Arkansas ministers today were named to top offices of the Arkansas Baptist State Convention for the coming year.

The Rev. T. K. Rucker of Forrest City was elected to a second term as president and the Rev. Walter Veldell of West Memphis was named first vice president to succeed the Rev. Gerald Trussell of Warren.

In other action, the messengers (delegates) studied a proposed \$1,700,000 budget for 1959, and the Rev. Butler Abington of Earle submitted a resolution asking the convention to reaffirm its belief in Sunday as "a sacred day."

The resolution was presented to the Resolution Committee.

"I have learned that there are certain forces who would attempt to have general election days changed to Sundays. I think we should express our strong disapproval of any such attempt. These

The last major cargo vessel disaster on the Great Lakes was in 1940. Two ships—the Novadock and Anna C. Minch—went to the bottom in the Armistice Day storm of that year with a loss of 57 lives. The storm lasted three days.

In another storm on Nov. 11, 1913, a total of 9 ships were lost and 254 persons died.

would be dark days indeed if we aped other nations by destroying God's day," the Rev. Mr. Abington told the convention.

Other new officers named by the convention included:

The Rev. Burton A. Miley of Springdale, second vice president, succeeding the Rev. L. C. Tedford of North Little Rock.

About one third of the budget goes to the Southern Baptist Convention and the other two-thirds to state causes and capital needs.

A total of \$876,000 is earmarked for the Southern Baptist Convention. State causes are due to get \$881,800 with \$249,120 of this going to Ouachita Baptist College, \$907,000 to missions, \$64,000 to retirement plans and \$65,000 to Arkansas Baptist Hospital.

\$12,000 for new mission sites and \$50,000 for the hospital, \$12,000 for new mission sites and \$5,000 for a new office building. Another \$100,000 is to be raised in Thanksgiving offerings for Bottoms Baptist Orphanage at Monticello.

The convention plans to set up a statewide organization to fight gambling, indecent literature and related targets.

Coaches Warn Prescott Has Size, Ability

The Hope High School Bobcats who have the best record of any team in Arkansas will play on Friday night when they journey to Prescott to meet the Curley Wolves.

In commenting yesterday the Hope Coaches said:

"We think our boys played one of their better games last Friday night against Arkadelphia. We had good downfield blocking by the entire team and it looked and sounded awfully good. We are real proud of them," said Pierce, Sawyer and Reasley.

"Prescott has a good ball club — one that we will have to respect in order to win. They have lost a few games but those were to teams with near-perfect records. They dropped one to Benton, 19 to 13, who has a 9-1 record, losing only to Fordyce. They also lost to Dierks 14 to 13 but the Outlaws have a 9-1 record, losing only to Broken Bow, Okla. So you can see they have a pretty good football team."

"Prescott's line is well-balanced with Pry, a 185 pound tackle and Steed, the other tackle at 175. Their two ends, 170 pound Sherrod who is 6'5" tall; Hart at 160 is 6'2" tall. Their guards are Peters and Steed at 130 pounds each and Center McKenzie weighs 170."

"We watched them play Bearden and were real impressed. They have a big fast backed led by Worthington at 180 who plays half; Sullivan at 170 is fullback; Billingsley, 165 is the other halfback and Lewis, 150, is the quarterback."

"They all can run and we still can't see why they haven't won more games than they have. I've been scared all year," said Coach Pierce, "and after seeing them play I have the nervous jerks."

Confirms That Schoendienst Has TB

ST. LOUIS (AP) — Red Schoendienst, Milwaukee Braves second baseman, has tuberculosis but his wife said he is determined to play again in the major leagues.

Schoendienst's personal physician, Dr. Ray Martin, said a series of tests disclosed beyond a doubt that the veteran ballplayer has TB and probably will not be able to play next year.

But Schoendienst's wife, Mary, said Tuesday night that he was "in very good spirits and determined to play again."

Red is in Mount St. Rose Sanatorium here. For a week or 10 days he will not be permitted to receive telephone calls or visitors except members of his immediate family. Dr. Martin said "he's a sick man and needs bed rest."

The doctor made no estimate on how long it would take Schoendienst to recuperate but said he was "optimistic about a full recovery."

Braves officials said the team would miss the slim infielder but expressed confidence they could win without him.

Manager Fred Haney said three Braves are second base material. Mel Roach, Felix Mantilla and Cnasy Wise. Roach, recovering from surgery to repair torn knee ligaments, apparently is the most likely replacement.

Schoendienst, 35 and veteran of 13 years in the majors, led the Braves to their 1957 world championship. He was bothered virtually all last season with a chest cold which developed into pleurisy. He also injured a rib and broke a finger. He batted only .262.

In spite of his rundown condition, he played a splendid 1958 World Series, batting .360 and fielding well.

Giardello, Webb Fight Tonight

SAN FRANCISCO (AP)—Middleweight contender Joey Giardello aims to enlist public support tonight in his campaign to win a shot at the title.

"If I put up a good fight, maybe the people will help me," says Joey who goes against Spider Webb at the Cow Palace in a 10-rounder televised by ABC at 10 P.M. EST.

Giardello, 28, is ranked No. 3 contender in the 160-pound Division by both Ring magazine and the National Boxing Assn.

Webb, 20, a former Olympic boxer from Chicago, holds the No. 4 spot in the NBA ratings and No. 5 in Ring magazine's.

Both are good boxers with a punch. Webb showed his here last January when he knocked out tough Rory Calhoun in the fourth round after being down twice himself.

Webb has fought 33 times with 20 victories and has stopped 15. Giardello has 77 victories, 11 losses, 3 draws and 1 no-decision draw.

Joey, who wants to force Sugar Rabinovich into a title defense, is ready ally in former heavyweight champ Joe Louis here for the fight.

"Rabinovich is getting to old," says the former Brown Bomber. Neither Giardello or Webb could beat him.

PROPOSING A NEW SUITOR

This One Likes Texas Tech Over Porkers

By HAROLD CLAASSEN
Associated Press Sports Writer

NEW YORK (AP)—This is the week that any bump or bruise suffered on a football field becomes a regally blacked surrounded by a fringe of royal purple. That's because of tradition, old chap.

Picking the winners, traditional of course:

Harvard over Yale: Absolutely nothing at stake in this one. The Harvards, beaten 34-0 last year, will try to pour it on.

California over Stanford: This is known as the Big Game on the West Coast but this time it is big only for the Golden Bears.

Louisiana State over Tulane: LSU will be Tulane's guest but what Billy Cannon and Johnny Robinson will do to the Tigers is a caution.

Ohio State over Michigan: This one always is unadulterated fury. Bob White to make Benny Oosterbuijn's farewell a sad one.

Missouri over Kansas: Both the coaches in this one are new. The things they will see will surprise them.

Southern California over UCLA: San Francisco had an earthquake once, Los Angeles survives this collision each autumn.

Texas Christian over Rice: Not only is this one traditional but this time the Cotton Bowl berth could hinge on its outcome.

Elsewhere: Iowa over Notre Dame; Southern California over UCLA; Florida over Florida State; North Carolina over Duke; Tennessee over Kentucky; Boston University over Connecticut; Holy Cross over Marquette; Dartmouth over Princeton; Rutgers over Columbia; Villanova over Quantico Marines.

Detroit over Dayton, Northwestern over Illinois, North Texas State over Louisville, Michigan State over Kansas State, Oklahoma State over Nebraska, Purdue over Indiana, Wichita over George Washington, Wisconsin over Minnesota.

Alabama over Memphis State, Auburn over Wake Forest, Clemson over Boston College, Davidson over Furman, Georgia over The Citadel, South Carolina over North Carolina State, Maryland over Virginia, Syracuse over West Virginia.

Southern Methodist over Baylor, Texas Tech over Arkansas, Arizona State over Arizona, Wyoming over Brigham Young, Oregon State over Oregon, Washington State over Washington, College of Pacific over San Diego, Air Force over New Mexico.

Associated Press Sports Writer

Reports from Miami say that Syracuse is the likely choice to oppose the Big Eight representative — most likely Oklahoma — in the Orange Bowl New Year's Day.

But at West Virginia, there's a non-post type named Longfellow who could put the stamp of disapproval on Syracuse's post-season ambition. He could turn the Mountaineers' so-so season into a successful one if they can defeat the Orange this Saturday.

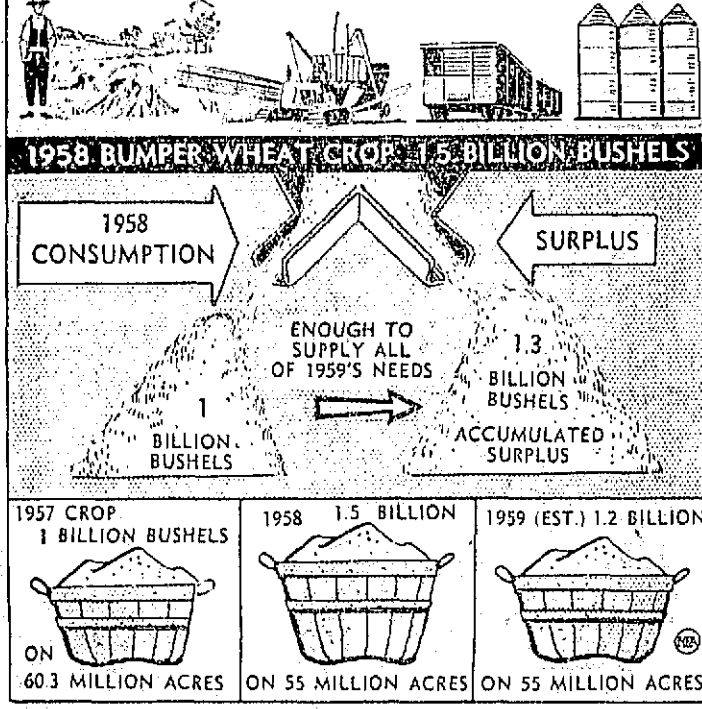

The 21-year-old with the literary name is Dick Longfellow, senior quarterback and the Southern Conference's new offense leader. He picked up the Mountaineers' after four straight losses following an

opening game victory. In three wins and a tie in their last four games.

Longfellow, a mite at 5 foot 9, has gained 127 yards in 9 games to overtake Virginia Tech's Bill Holslaw, who led all season. He has completed 72 of 159 passes for 809 yards and 6 touchdowns.

Another bowl hopeful, Clemson, looks a verbal prod from Coach Frank Howard as it prepped for Saturday's game with Boston College.

"They talk like they want to go to a bowl," he said, "but now I like to see 'em play that way. We just don't look good at all."

GOOD NEWS IS BAD NEWS—Despite determined government cutbacks on wheat acreage, this year's harvest looms as the largest on record, 500 million bushels more than can be consumed at home or by export. This means that America's mountain of surplus wheat will be hiked up to 1.3 billion bushels. This is enough, says the Department of Agriculture, to fill all our needs for 1959 and still have 300 million bushels for 1960. But already another bumper crop is being predicted for next year. The government at present holds \$2.5 billion worth of wheat in storage bins worth \$250 million, costing \$450,000 a day to maintain.

LOOK TO YOUR LAURELS, DIXIE—It's cotton-pickin' time in Ohio, huh? Farmer Fred Shuman examines bolts from six-foot plants grown in his yard in Lowell. The seeds normally produce bush-height growth in the area.

Oklahoma and Nebraska which clash Saturday to decide the Big Eight title officially both worked on defense Tuesday.

Notre Dame worked on pass defense for Saturday's nationally televised game with Iowa. Fullback Nick Pietroski, hobbled in the North Carolina game, is expected to see action.

Lower Coach Forest Evansveski moved Jeff Langston to No. 1 left end and Capt. John Nocera worked at fullback in place of the injured Dan Horn.

Mexico Ready for Top Golf Matches

MEXICO CITY (AP)—The glittering fairways and greens of the deceptively beautiful Club de Golf Mexico were given a final trim today on the eve of the International Golf and Canada Cup matches.

A record field of 63 stars from 32 countries will tee off Thursday in the first of four 18-hole daily rounds on the tough 7,216-yard par-72 course on the outskirts of the Mexican capital.

The two-man team with the lowest combined score will win the Canada Cup. The individual low scorer will win the International championship.

"Anyone shooting 280 will win," predicted defending champion Torakichi (Pete) Nakamura of Japan, waving a chopstick over a hot Japanese meal delivered to him and teammate Koichi Ono at the clubhouse.

"I think a 282 will be good enough," said young Gary Players of South Africa.

The man expected to shoot that winning low score despite his age, is Ben Hogan of the United States. Hogan and Sammy Snead, both 46 and the oldest in the tournament, are also favored to win the team trophy.

Experts rate the U.S. team No. 1 followed by Japan; South Africa, England, Ireland, Australia, Sweden, Wales and Argentina.

Hogan and Nakamura are betting favorites, but they could be upset by Player, Snead, Wales' Dai Rees or Dave Thomas, Peter Allis Jr. of England or Flory van Donk of Belgium.

Hogan and Snead are matched against Argentina's strong Fidel de Luna and Leopoldo Ruiz in the opening contests.

Japan's defending champions tangle with Mexico's host team of Jose Gonzalez and Juan Neri.

Good Prospect for Start on Space Policy

By TOM HOGE
UNITED NATIONS, N.Y. (AP)—The prospects looked good today for unanimous U.N. agreement to get started on an international study of ways to explore outer space for peaceful purposes.

Russia's sudden shift toward the Western position brought demands from several quarters that Western and Soviet delegates meet to iron out their remaining differences and formulate a unified resolution for the U.N. Assembly.

Western delegates were heartened by the new Soviet proposal, which dropped earlier demands for abandonment of U.S. bases overseas and a ban on military space missiles. This appeared to eliminate the chief hurdle to agreement.

In presenting his new plan, Soviet Deputy Foreign Minister Valentin Zorin made plain the Soviet Union would continue to press for abolition of American overseas bases and a ban on sending military missiles into outer space.

But he indicated this would be done through the new 81-nation U.N. Disarmament Commission.

Russia's new proposal called for creation of an 11-nation study group to work out the "program and rules" for a permanent U.N. committee for cooperation in the study of outer space for peaceful purposes.

The United States and 49 associated nations have also proposed creation of a temporary committee to study the possibilities of international cooperation in outer space and to recommend the form for a future space agency. The American plan does not specifically authorize a permanent commission.

Zorin also proposed a list of members for the preparatory group which is likely to draw western opposition. His nominees were the U.S.S.R., Britain and France, with India, the United Arab Republic and Sweden as neutrals, Argentina for the Latin Americans, and Poland, Romania and Czechoslovakia from the Communist bloc.

Since India and the U.A.R. are generally said to have Soviet leanings, it appeared unlikely that the U.S. plan would be adopted. A committee of neutrals, however, probably would be chosen.

The Cape of Good Hope, located at the southern tip of the narrow Cape Peninsula in southernmost Africa, is a rocky promontory rising 800 feet above the stormy sea below. King John of Portugal, late in the 15th century, gave it the name Cape of Good Hope, because he felt that its discovery by Bartholomew Diaz in 1488 meant the sea route to the East would be opened.

UP ON THE FARM—Farm prosperity is reflected in reported farm equipment industry earnings, as farmers continue to invest sizable chunks of their incomes in new tractors and implements. Industry spokesmen estimate 10 to 15 per cent higher sales in 1958, continuing three-year climb as shown on Newschart above.

Matter of FACT

The population of Canada is made up of many nationalities. About half the people are of British origin; about 30 per cent are of French origin and the remainder includes people from all parts of the world, particularly Europe. Because they have a large French-speaking population, Quebec and Montreal are more French than English. In Quebec province, where 90 per cent of the people are French-speaking, civil law is fundamentally based on French law.

Chapter 27

Her course lay quite clear before her. This was not the first time she'd sneaked into the house. She'd played at it often — never imagining that she would someday be doing it in deadly earnest — and she knew just how to get about it. There were trails scattered over the lawn, and occasional clumps of plaining. She could dodge from one to another of them, making her way toward the house. She could be seen, of course, if they were looking for her; but on the whole she would be well covered and only for a second... another second... a third second, would she be exposed.

She held her breath again, baseka, was the victim.

In critical condition at a hospital here was David T. Fowler, 19, of Wabbaseka, a passenger in Manuel's car.
State Trooper Willie Ingram said the occupants of the truck, Charlie Woolfolk, 18, and Anna May Adams, 16, were not seriously injured. Both are Negroes of Wabbaseka.

Union to Back Up on Drive to End Corruption

By NOMAN WALKER

WASHINGTON (AP) — The AFL-CIO faces a problem of backing up on its anticorruption drive or possibly losing another of the labor federation's major unions, the Carpenters.

Maulie Hutcheson, the Carpenters Union boss, has dared AFL-CIO President George Meany to stop investigating the carpenters or risk withdrawal of the 840,000-member union from the merged labor organization.

Having already tossed out the 1 1/2 million member Teamsters Union on corruption charges, AFL-CIO leaders may think twice about further depleting federation ranks now down to about 13 1/2 million members.

At an AFL-CIO Executive Council meeting two weeks ago Walter Reuther, head of the Auto Workers, and James O. Carey, president of the International Union of Electrical Workers, moved to oust Huddleston as a council member and AFL-CIO vice president right then and there.

However, the council decided to give Hutcheson more time to explain his refusal to answer questions by the Senate Rackets Committee and to discuss his indictment in Indiana highway scandal.

While shunning an invitation to attend that council meeting, Hutcheson sent a written denial of wrongdoing or misuse of union funds. Then last week the Carpenters Union convention authorized Hutcheson and fellow union officials to pull the union out of the AFL-CIO if and when they see fit. The way things stand now, the AFL-CIO council has a stake in Hutcheson to appear and make his explanation of corruption charges at its next meeting in February at San Juan, Puerto Rico, or at a special session whenever Hutcheson is ready.

Argentine Congress in Joint Session

BIENOS AIRES (AP) — The Argentine Congress met in joint session tonight to act on the resignation of Vice President Alejandro Gomez.

Gomez submitted his resignation to the Senate Tuesday after denying for six days that he had plotted to overthrow President Arturo Frondizi.

Congress was considered certain to accept the resignation.

household around her. But it rested securely enough on the brick ledge. She twisted herself around until her feet stuck out in front of her and then, very gently, trying not to make the bushes rustle too loudly, she lowered herself, squeezing into the small square space, floored with soggy leaves, until she was crouched just in front of the window.

She pushed it. For a moment it, too, stuck, and then with a scraping of paint and wood it swung open. It was hinged at the top, and a stick lay on the sill for holding it open. Below it was the washing machine.

She pulled back the stick and closed the window silently. Then she looked around the basement. It was very gray and very dim, with the only light filtering through the subterranean windows.

It was a vast, bleak concrete cavern, as large as the whole house above, stretching away endlessly, it seemed, in one gloomy recess after another. The sound of the waves did not penetrate here; it was utterly silent. Katherine scrambled down from the washing machine and adjusted her skirt.
